

BLACK SEA 2030:

SECURITY, RESILIENCE, INNOVATION

At a time when the Black Sea region stands at the crossroads of geopolitical, economic, technological and climate transformations, the Forum will bring together leading policymakers, researchers, innovators and business representatives to shape a shared vision for the region's future.

DEAR COLLEAGUES,

**Please save the date for the second edition of the international forum
BLACK SEA 2030: SECURITY, RESILIENCE, INNOVATION**

The Forum will explore security and resilience in their broadest sense – encompassing maritime and energy security, economic competitiveness, climate adaptation, critical infrastructure, regional connectivity and the transformative role of emerging technologies.

Key topics will include:

- Geopolitics, maritime security and regional resilience;
- Energy connectivity, transport corridors and strategic investments;
- Climate and environmental security;
- Artificial intelligence, digital twins and technologies for a sustainable future;
- The European Ocean Pact and the future of the Black Sea;
- A special closing dialogue bringing together leaders, media representatives and young people to discuss the future they want to build for the Black Sea region.

The programme will feature high-level international guests, thematic panels, an expo zone showcasing innovative solutions and projects.
